SDMC2 Enhancement: Detailed Adjustment Training October 13 & 18, 2011

Beginning this week, providers will be required to include more detailed information on Medi-Cal claims where another payer was billed first and did not pay the entire claim amount. These changes to the Integrated System (IS) impact claims for clients who have both Medicare and Medi-Cal (Medi/Medi) and who have other health coverage (OHC) and Medi-Cal (OHC/Medi-Cal). To assist staff in understanding these new requirements, Revenue Management Division (RMD) and Chief Information Office Bureau (CIOB) staff are offering training on October 13th and 18th, 2011. Below is a training schedule with the session dates, locations, and times. Space is extremely limited and we anticipate that each session will be full. To minimize overcrowding, only those people who are involved in data entry or billing Medicare or OHC should attend this training.
